### Description:

Everyone gets their feelings hurt in life. As these wounds fester and compound throughout life, they become scars that affect our current relationships. Anyone suffering from a wounded heart feels a sense of separation from people, but the separation it creates from our heavenly Father is far worse for our mind, body and soul. "Broken Heart Syndrome" is a recognized medical condition. Tests show that the pain caused by relational stress or trauma releases stress hormones to circulate through the body. This causes the inner layers of the heart to shred, damaging the cardiac muscle and its capacity to pump blood throughout the body. The chest pain this can cause resembles a serious heart attack. Stents or angioplasty can treat blocked vessels, but modern medicine still has no quick fix for a broken heart. Joan Hunter reveals how to heal your heart from past hurts. To do this, you must be set free from the trauma of past relationships that prevent you from giving of yourself to those most important to you today. In doing so, you will also restore your most important relationship—the one with your heavenly Father.
